Coimbatore, India | +91 9489917010 | tmadhumitha24@gmail.com

EDUCATION

PSG INSTITUTE OF TECHNOLOGY AND APPLIED RESEARCH

Bachelor of Engineering in Computer Science and Engineering
Cumulative GPA: 8.9/10 (as of the third semester)

Coimbatore, India
Expected May 2026

BHARATHI MATRICULATION HIGHER SECONDARY SCHOOL

CLASS 12: 90%; CLASS 10: 88%

Coimbatore, India
May 2022

PROJECTS

BUSINESS OCR

06/2024 – 07/2024

- Developed a Business Optical Character Recognition (OCR) using a tech stack that includes **EasyOCR**, **Streamlit**, and **PIL**.
- Extracts and processes textual information from scanned business documents converting them into machine-readable text.
- Implemented pre-processing techniques for image enhancement and noise reduction, leading to increased data entry speed by **75%**.

ONLINE PRINTING MANAGEMENT SYSTEM

04/2024 – 05/2024

- Developed to streamline print requests and manage resources efficiently.
- Features a user-friendly interface built with **HTML and CSS**, functionality implemented with **JavaScript**, and a robust backend for seamless database management using **SQL**.
- Enhanced the system with real-time tracking and automated notifications, ensuring timely updates and improved workflow efficiency.

MIND MAP GENERATOR

10/2023 – 12/2024

- My mind map generator is a dynamic web application built with **HTML, CSS, and JavaScript**. It allows users to create and customize mind maps with various node shapes, including circles, rectangles, squares, and rhombuses.
- The project emphasizes user interaction by enabling content input within nodes and automatically generating arrows between connected nodes for a visually organized structure.

FACE RECOGNITION

05/2023-05/2023

- Developed an innovative Face Recognition tool using **MATLAB** that represents a category of biometric software that maps an individual's face features mathematically and stores the data as face print..

ACTIVITIES

- Participated in the Smart India Hackathon (SIH)** focused on Development of platform for multi-modal visibility of coal transportation.
- Participated in the Itech Hackfest** focused on the prediction of over-hire and downfall of institutions using various parameters like benchmark percentage, historical predictivity.
- Attended an internship at ELGI Digital Innovation Dojo** , focusing on gaming development and creation of basic game apps using VERGE-3D and BLENDER.

SKILLS

- | | | | |
|----------|--------------------------------|-----------------------------|-------|
| Python | Data Structures and Algorithms | Operating Systems | MySQL |
| HTML/CSS | Object Oriented Programming | Database Management Systems | |
| AIML | | | |
