AREAS OF INTEREST

1. Machine Learning 2.Backend Development 3.DBMS 4.Web development

EDUCATION

PSG Institute of Technology and Applied Research

B.E Computer Science and Engineering

2022 – 2026

CGPA: 9.03*

Amrita Vidyalayam , Ettimadai

12th grade: 90.5%

10th grade: 95.5%

INTERSHIPS

Backend Development Intern

eSilicon Labs, Chennai

02/2024 – 03/2024

- Trained on **design and implementation of Database.**
- skills : Postgresql , Django
- Developed an Application specific Postgresql Database scheme and implemented using Django.

PROJECTS

Virtual Paint

Tech stack : Python – OpenCV , Contour Detection

- The project aims to enable handicapped individuals to write on a display using only hand movements through contour detection technology.
- Implemented Contour detection algorithms to accurately track hand movements.
- Created an user friendly interface enabling intuitive colour selection and drawing.

Online Printing Services Management

Tech stack : Html, CSS , PHP

- The system allows customers to submit print orders and customize options, while admins can manage and track orders.
- This project highlights skills in full-stack web development and user interface design.

SKILLS

- Languages: Python, C ,C++
- Platforms: Git
- Web development: HTML, CSS
- Artificial intelligence: Machine Learning, Deep Learning Techniques

AWARDS AND ACHIEVEMENTS

- Solved over 500+ problems in various coding platforms.
- 3-star coder at codechef.
- Secured First place at itech hackfest (2022-2023).
